

## YIP'S SUPER STORE OR SUPER [Fraud](#)

Dear Police, there is a Store on Charlotte Street, with Pharmacy Sign over their Entrance Yip's Super Store but selling a variety of goods in addition to Art Supplies and Books.

They sold me a Remote-Controlled Car in a Box showing an open back Van on the front, back and top. So, when the car stopped working and I took it back, they said they cannot change it because the box package was damaged and a back piece on the car was broken as in may have been dropped. Receipt attached below and Photos will be sent afterwards.

That is true, but the package shows that a very sturdy Van was supposed to be the box, which is a [Fraud](#) and the Sales Clerk statement a [misrepresentation](#). It could not have returned in a Van Box, when it was a car.

An inferior car was put in the Van box, which could have been damaged by simple use.

Photos will be sent of the box with the car in it and the Receipt. In addition, Police Officers are hired to protect the business every day.

There were more persons inside the Store than the [SOE Regulations](#) and whilst hundreds of Businesses are closed, they selling anything Customers can see.

This is contrary to the SOE Regulations and the Right to Equality Before the Law in our Constitution, in my humble opinion.
